A0 (84 x 118.8)	384.00	780.00

Lamda Digital Master Prints are the ultimate in quality. Digital Master Prints are laser imaged from a digital file direct on to photographic paper. They are clear, crisp and show precise detail. Colour is true, pure and brilliant.

Images can be mounted on 12 mm or 18 mm MDF if required. If you require thicker MDF please request a quote.

Prints can also be supplied on canvas if required but I prefer to supply Digital Master Prints because of the clarity and quality of the image achieved. If you prefer an image on canvas please request a quote.

Block mounted prints are supplied with hangers and are laminated to protect the image with 125 micron thermal laminate.

A \$20.00 courier and packaging charge for shipping within New Zealand will be added to each order. If you require shipping to an international destination please request a quote.
